d) TIME DIFFERENCE:

Time zone UTC+3 (EAT)

e) ELECTRICITY SUPPLY:

Uganda uses a 240V electricity supply with a frequency of 50Hz, similar to the UK.

Power sockets are generally the British-style three-pin (Type G). Tourists are advised to carry a universal power adapter if their devices use a different plug type

f) CAR HIRES AND TAXIS:

The best option for getting around cities, is private taxis and they are available in Kampala through taxi-ride apps including uber, faras, bolt, etc.

Additionally, Special hire taxis are what a modern city dweller would be familiar with. (taxi or cab) Special hire is a term that means hiring a vehicle privately to take you somewhere.

A standard vehicle for 4 persons + driver, who drives you wherever you want. This works very well, and the drivers are friendly, helpful and they know one's way around. Urban taxis are also known locally as special hires and are usually painted yellow, or with a white and yellow band (Entebbe airport taxis) around the middle or with a taxi cab light on the top.

The fee does not depend on the distance or the duration, but its negotiated before you start. Taxicab fares are a little pricier than all the above-mentioned road transport means but far more secure to travel with if you organize a special hire vehicle.

Prevailing rates for cabs from Entebbe International Airport to Conference Venue;
Uber x – USD 33 / UGX 120,000
